

RESEARCH BRIEF

INSTITUTIONAL AND PROGRAM PLANNING

VOLUME 3

NUMBER 2

DECEMBER 1993

DESCRIPTION OF 1992-93 HEADCOUNT STUDENT ENROLLMENT AND COMPLETERS OF DEGREE/CERTIFICATE PROGRAMS

During reporting year 1992-93, St. Petersburg Junior College served a total of 58,933 students in both credit and non-credit courses. This number represents an unduplicated headcount of 36,024 students taking credit courses and 23,009 taking non-credit courses. Credit courses are those for which a student may earn credit towards an A. A. or A. S. degree or vocational certificate, whether or not the student is actively seeking the degree or certificate. Non-credit courses are those for which a student does not earn credit towards a degree or certificate. They include courses designed to upgrade vocational skills of the employed (vocational supplemental courses) and courses designed to foster lifelong learning or recreation and leisure skills. College preparatory courses, although generally taken as part of a degree program, are classified, also, as non-credit courses since the curriculum is considered less than college level material. The non-credit number excludes over 9,000 students enrolled in college preparatory courses because these students are normally enrolled in college level courses and are counted in the credit category. The 1992-93 reporting year consists of Summer 1992, Fall 1992 and Spring 1993.

The table below shows the distribution of students by gender within ethnicity for students enrolled in credit courses and for students completing degree/certificate programs. Over sixty-nine percent (69.2%) of our students are enrolled in programs leading to an associate degree or are waiting for admission to a limited access A. S. degree program. We have few vocational certificate programs which explains the small percentage of students (0.7%) enrolled in programs with curriculums of less than a two year duration. The remaining students (30.1%) are taking credit courses that could be counted towards a formal award but presently have not committed (and may never commit) to any degree program.

1992-93 ANNUAL UNDUPLICATED HEADCOUNT COMPARISON OF ENROLLMENT TO COMPLETERS BY GENDER AND ETHNICITY

	AA Degree		AS Degree		Voc. Cert.		Pre-Degree*	O.P.O.*	Total

E = Enrollment C = Completer

*Pre-Degree = Students waiting for acceptance into limited access vocational programs. O.P.O. = Other Personal Objectives

The number of completers (graduates) for 1992-93 numbered 2,594. Over two-thirds (68.8%) of the student completers for that reporting year were awarded the A. A. degree. Comparing the distribution of 1992-93 enrollments by ethnicity to the distribution of student completers for that reporting year, we see that 86.9% of the enrolled students were white and 89.6% of the program completers were white; black students comprised 6.2% of the enrollment and 3.4% of the completers; Hispanic students comprised 2.8% of the enrollment and 2.2% of the completers; Asian students comprised 2.1% of the enrollment and 3.1% of the completers; American Indian students comprised 0.9% of the enrollment and 0.4% of the completers.

Enrollments and completers in specific A. S. degree programs appear below.

**1992-93 ANNUAL UNDUPLICATED ENROLLMENTS AND COMPLETERS
IN A.S. DEGREE PROGRAMS**

<u>Program Name</u>	<u>Enrollments</u>	<u>Completers</u>
Accounting Technology	203	11
Architectural Design & Construction Technology	39	3
Aviation Administration	30	1
Building Construction Technology	46	2
Business Administration & Management	490	33
Child Development and Education	160	5
Computer Information Systems Analysis	164	26
Computer Programming & Applications	275	12
Criminal Justice Technology (Academy Track)	64	2
Dental Hygiene	53	39
Electronics Engineering Technology	115	8
Emergency Medical Services	14	8
Fashion Design (C.A.S.P.)	14	14
Fashion Marketing Management	59	4
Financial Services	41	3
Fire Science Technology	75	4
Funeral Services	2	0
Graphic Design Technology	157	10
Health Services Management	87	5
Human Services Technology	211	3
Interior Design Technology	93	7
Interpreter Training Program for the Hearing Impaired	29	0
Legal Assisting	528	31
Manufacturing Technology	17	0
Marketing Management	89	10
Medical Laboratory Technology	37	4
Medical Record Technology	78	30
Nursing, R.N.	828	317
Office Systems Technology	120	15
Physical Therapist Assistant	86	38
Professional Pilot Technology	182	5
Radiography	130	32
Respiratory Care	35	11
Veterinary Technology	158	35
Water & Wastewater Technology	21	0
Total	4730	728

Note that these numbers reflect total enrollments and total completers for each A.S. program, not the progress of a selected group of students over time. As such, these data should not be compared with one another and cannot be used to draw conclusions about retention or success.
